State: _____

DESCRIPTIVE REPORT.

Top. _____ *Sheet No. 1050a*

LOCALITY:

1912

CHIEF OF PARTY:

E. B. Latham

11-4645

1050a

Revision of Topographic Sheets
Numbers, -440 and 1050

The revision on these sheets consists of that portion of the sheets between Topographic sheet number 2375, Portsmouth Harbor and vicinity, and Chart 328 - York Harbor and vicinity.

The York Beach and Harbor railroad, and the Atlantic Shen line Electric railroad, with a few new roads, and changes in the wooded areas, are the only changes noted.

The area shown, is but little changed since the previous surveys.

There are no summer resorts on the sheet, and as the Shen line is practically all rock or heavy shrub there are no changes in it or in depths close in shore.

There is a land Company organized, but the proposed roads are not yet opened or worked.

E. S. Latham

Chief of Party Corps.

Portland Me. Dec 27-1912

Examination of Topographic Sheets

by the

Divisions of Field Work and Field Records.

1. Has the magnetic meridian been determined? *No*
2. Is the point occupied for the determination of magnetic meridian designated?
3. Is the approximate or rodded location of high water mark in back of mangroves shown?
4. Have navigable rivers been surveyed?
5. Is interior information given by descriptive legends or otherwise?
6. Is the inking of the sheet legible?
7. Is projection properly shown?
8. Are methods of surveying fully described? *No - lacking*
9. Are descriptive legends given concerning conspicuous islets, objects, rocks, and other features given in blank areas?
10. Are geographic names given?
11. Is full information regarding geographic names given in the descriptive report in accordance with paragraph 557 of the Instructions for Field Work?
12. Are the names of topographic signals given?
13. Does the sheet have a neat appearance?
14. Is sufficient contouring shown, some of which could be obtained by sextant directions from boat positions?

1050^a

15. Is the control good?
16. Is the sheet well laid out?
17. Is the accuracy of traverses between triangulation stations stated
in the descriptive report? *No*
18. Are the elevations of prominent rocks or islets given?
19. Are the description of reefs, as bare, awash or covered at high or
low water given?
20. Are objects useful for future surveys indicated? *No*
21. Is there a record of marking topographic stations? *No*
22. Is the character of the beach shown in various places?
23. Is the plane of reference for elevations given?
24. Is the low water line determined at important places?
25. Is there a full list of data affecting sheet given on title sheet?
.....
26. Is there a list of plane table positions? *No*
27. Are the elevations whether that of tree-top or ground indicated? .
.....
28. Does the descriptive report give date of instructions? *No*
29. Is a sketch given showing contouring of interior mountainous country
beyond limits of sheet?
30. Is the general description of the coast given?
31. Is there information about obtaining fresh water?
32. Have standard symbols for various features been used?

1050^a

33. Is the survey complete?
.....
34. Is there a note as to cultivations, roads and other improvements?
.....
35. Is commercial information given in descriptive report?
36. Is there a list of landmarks? *no*
