#### COMPILATION REPORT T-11405

#### PHOTOGRAMMETRIC PLOT REPORT

Submitted with T-11409.

#### 31. DELINEATION

The graphic method was used.

The field inspection was good.

#### 32. CONTROL

See Photogrammetric Plot Report.

#### 33. SUPPLEMENTAL DATA

None used.

#### 34. CONTOURS AND DRAINAGE

Contours are inapplicable. Drainage has been delineated as shown photographically.

#### 35. SHORELINE AND ALONGSHORE DETAILS

Delineated according to field inspection notes which were adequate.

#### 36. OFFSHORE DETAILS

There were no offshore details requiring attention.

#### 37. LANDMARKS AND AIDS

Eight aids (for charting) and one landmark (for deletion) were submitted on Forms 567 under date of March 1, 1961. One Form 567 (for landmark to be charted) is being submitted with the data for this sheet.

#### 38. CONTROL FOR FUTURE SURVEYS

There are three recoverable stations listed under item 49, two of which are marked and one is a natural object.

#### 39. JUNCTIONS

Junctions have been made to the south with T-11409, to the east with T-11406 and to the west with T-11404, (No delineation along this junction). There is no contemporary survey to the north, nor was this map delineated to the northern limits.

#### 40. HORIZONTAL AND VERTICAL ACCURACY

No statement.

#### 46. COMPARISON WITH EXISTING MAPS

A comparison has been made with USGS quadrangle "Fort Myers NW, Florida"; scale 1:24,000 compiled in 1958. The comparison is favorable. There is however a new bridge across the Caloosahatchee River under construction.

A comparison was made with USC&GS topographic maps T-5871 and T-5872, scale 1:10,000. The comparison was favorable except for some new piers, bridge and new construction.

#### 47. COMPARISON WITH NAUTICAL CHARTS

A comparison has been made with chart 473, scale 1:40,000, 5th edition of April 1930, revised to December 1959. The major change is the bridge mentioned in item 46.

#### ITEMS TO BE APPLIED TO NAUTICAL CHARTS IMMEDIATELY

None.

#### ITEMS TO BE CARRIED FORWARD

None.

#### Review Report Shoreline Maps T-11401 thre T-11406 April 1965

## 61. General Statement

Area - The project encompanses the west coast of Flerida from Venice to Big Elebery Pass, including Charlotte Markor and Fort Nyers.

Purpose - The object of this project is to provide shoreline and harisental control date for hydrographic surveys, and to provide date for mautical chart revisions.
