SUMMARY TO ACCOMPANY
DESCRIPTIVE REPORT T-11924

Shoreline manuscript T-11924 is one of forty-nine similar maps in this project and covers a part of the coastline of Maui Island. This was a Kelsh project in advance of hydrographic surveys in the area. The field operations preceding compilation included recovery and identification of horizontal control and field inspection. The Kelsh compilation was at 1:5,000 from 1:25,000 scale photography obtained 11 October 1960 and 24 September 1961. A cronaflex positive showing shoreline, alongshore detail and shoreline pass points was furnished for preparation of the hydrographer's boat sheet and the location of hydrographic signals. 1:5,000 scale ratio prints were furnished for hydro support and field edit purposes. The compilation manuscript is a vinylite sheet 1 minute 52.5 seconds in latitude by 1 minute 52.5 seconds in longitude from which the smooth sheet was drafted and reproduced on cronaflex. One cronar positive and one cronar negative are provided for record and registry.

49. NOTES TO THE HYDROGRAPHER

The following photo-hydro stations, identified by the field inspection party, were located during compilation.

2401	Antenna Pole	60 W 2712
2402	S.W. corner of pavillion	60 W 2712
2403	Corner of seawall	60 W 2712
2404	Stone chimney	60 W 2712
2405	Northeast corner of concrete foundation	60 W 2712
2406	Northwest corner of old house	60 W 2712
2407	North water gable of house	60 W 2712
2408	North corner of foundation	60 W 2712

14.

REVIEW REPORT T-11924
SHORELINE

61. GENERAL STATEMENT

See summary accompanying Descriptive Report.

62. COMPARISON WITH REGISTERED TOPOGRAPHIC SURVEYS

Comparison was made with Registered Planetable survey No. 3277, 1:20,000 scale, made in 1912 and approved March 30, 1914. Map manuscript T-11924 supersedes this prior planetable survey and should be used for future nautical chart construction.

63. COMPARISON WITH MAPS OF OTHER AGENCIES

Comparison was made with U.S.G.S. quadrangle Puu O Kali, Hawaii, 1:24,000 scale, edition of 1954. The small islets, or rocks, shown off shore of Kamaole Beach on the U.S.G.S. quadrangle are not visible on any of the photography of the area.

64. COMPARISON WITH CONTEMPORARY HYDROGRAPHIC SURVEYS

Comparison was made with a copy of boat sheet H-8681-PF-10-2-62, 1:10,000 scale. The shoreline of the boat sheet was obtained from a reduction of map manuscript T-11924.

65. COMPARISON WITH NAUTICAL CHARTS

Comparison was made with Charts 4104, 1:10,000 scale, 4th edition dated June 29, 1964 and with 4130, 1:80,000 scale, 4th edition dated August 31, 1964. The submerged rocks at latitude $20^{\circ} 44' 50''$ longitude $156^{\circ} 27' 40''$ and at latitude $20^{\circ} 43' 50''$ longitude $156^{\circ} 27' 20''$ on Chart 4130 are not visible on any photography of the area.

66. ADEQUACY OF RESULTS AND FUTURE SURVEYS

This survey complies with instructions and meets the National Standards of Map Accuracy.
