## SUMMARY TO ACCOMPANY DESCRIPTIVE REPORT T-12301

Shoreline manuscript T-12301 is one of fifteen similar maps in Project 21059 (PH-6217). The sketch on page 5 of this report shows the position of this map in the project. This is a Kelsh project in advance of hydrographic surveys in the same area. The field operations preceding compilation included recovery and identification of horizontal control and field inspection. The Kelsh compilation was at 1:20,000 scale from which a cronar positive showing shoreline and alongshore features was furnished for preparation of the hydrographer's boat sheet. 1:30,000 scale photographs taken February 21, 1963 were used for compilation. 1:20,000 scale ratio prints were subsequently provided for hydro support purposes. The compilation manuscript is a vinylite sheet  $7\frac{1}{2}$  minutes in latitude and  $7\frac{1}{2}$ minutes in longitude from which the smooth sheet was scribed and reproduced on cronaflex. One cronar positive and one cronar negative are provided for record and registry after final review.

FIELD INSPECTION REPORT Project 21059 (PH-6217) Map T-12301

Field inspection report of this map is filed under map T-12302.

### COMPILATION REPORT T-12301

### PHOTOGRAMMETRIC PLOT REPORT

Submitted with T-12296

### 31. DELINEATION

The Kelsh plotter was used. Field inspection was adequate.

### 32. CONTROL

See Photogrammetric Plot Report.

### 33. SUPPLEMENTAL DATA

None

### 34. CONTOURS AND DRAINAGE

Contours are inapplicable.

Drainage was delineated as inspected or from office interpretation.

### 35. SHORELINE AND ALONGSHORE DETAILS

The shoreline inspection was adequate.

Low water and shallow lines were delineated from office interpretation.

### 36. OFFSHORE DETAILS

None

### 37. LANDMARKS AND AIDS

Appropriate copies of Form 567, for Aids to Navigation were forwarded to Washington Office under date March 6, 1964. There are no landmarks.

### 37. LANDMARKS AND AIDS (Cont.)

### 38. CONTROL FOR FUTURE SURVEYS

None

### 39. JUNCTIONS

Junctions are in agreement with T-12298 to the north and T-12300 to the west. The Atlantic Ocean is to the south and east.

### 40. HORIZONTAL AND VERTICAL ACCURACY

No statement

### 46. COMPARISON WITH EXISTING MAPS

A comparison was made with U.S.G.S. Quadrangle Magnolia, S.C. scale 1:24,000, 1942.

### 47. COMPARISON WITH NAUTICAL CHARTS

A comparison was made with C&GS Chart No. 1237, scale 1:80,000 revised 11-5-62.

### ITEMS TO BE APPLIED TO NAUTICAL CHARTS IMMEDIATELY

None

### ITEMS TO BE CARRIED FORWARD

None

K. Boyle

Cartographic Tech.

Approved and forwarded:

J. C. Bull, Director, Atlantic Marine Center

### FIELD EDIT REPORT T-12301

No formal field edit report was received. Field edit data received on the discrepancy print indicates that the manuscript was field edited in June 1964.

### REVIEW REPORT T-12301 SHORELINE June 8, 1966

### 61. GENERAL STATEMENT

See summary accompanying Descriptive Report (page 6)

### 62. COMPARISON WITH REGISTERED TOPOGRAPHIC SURVEYS

Comparison was made with Registered Survey T-8219, 1:20,000 scale edition of 1942.

Midway Inlet has shifted to the northward and the shoreline on either side has changed considerably. There are minor changes in the interior of the map and in the apparent shoreline along Powlegs Island Creek and Clubhouse Creek.

This map supersedes the listed prior survey for nautical chart construction.

### 63. COMPARISON WITH MAPS OF OTHER AGENCIES

Comparison was made with U.S.G.S. quadrangle MAGNOLIA BEACH, SOUTH CAROLINA, 1:24,000 scale edition of 1942.

This quadrangle, published by the U.S.G.S., is the civil edition of T-8219 referred to in ITEM 62; and the same differences with T-12301 exist.

### 64. COMPARISON WITH CONTEMPORARY HYDROGRAPHIC SURVEYS

Comparison was made with a copy of boat sheet PE-20-2A-64 between latitude 33°22'30" and 33°27'00". No contemporary hydrographic survey north of latitude 33°27'00" was available for comparison purposes at the time of final review.

Boat sheet PE-20-2A-64 shows no detail inshore from the Atlantic Ocean. The shoreline on the boat sheet and the manuscript are in good agreement along the outer coast.

### 65. COMPARISON WITH NAUTICAL CHARTS

Comparison was made with chart 1237, 1:80,000 scale, 3rd edition, dated June 21, 1965. The shoreline along the outer coast and the size and shape of Midway Inlet is in good general agreement with map manuscript T-12301.

### 66. ADEQUACY OF RESULTS AND FUTURE SURVEYS

This survey complies with the instructions and meets the National Standards of Map Accuracy.
