Descriptive Report
to accompany Top^c Sheet N^o 2140.

This is hardly to be classed as a topographic sheet, though so registered for convenience of reference.

It is on the scale of 1:40000, embracing parts of Pennsylvania, Delaware, Maryland and New Jersey, and was used in making the reconnaissance for the triangulation along the "circular boundary" of Delaware. It also shows the triangulation of Lt. Col. J. D. Graham near the N.E. corner of Md. in 1849 and 1850 and the C. & G. triangulation along the Delaware River.

W. C. Hodgkins
Chief of Party.
