SHEET No 3. Vicinity of Baltimore General Characteristics -

The general characteristics of this sheet are similar to No 1, as it is but a small addition to it. It lies altogether upon the plateau mentioned in the descriptive report of that sheet. The proportion of arable to farming lands is about 3 to 1. The roads of this area are but indifferent-ly constructed. No interests flourish here excepting the tillage of lands.

Number of square miles 2
but for " " for 144 sq. mi.
