Descriptive Report-
to accompany Topographic Sheet N^o
of Long Island, Woody Island,
and Spruce Cape, Kodiak, Alaska.
1908.

The shore line of this region
was surveyed in 1907 and the work
on this sheet merely fills in the
interior topography.

There seems to be nothing to add
to descriptive reports of previous sheets,
and reference should be made to those
reports.

Respectfully,

W. C. Hodgkins

Assistant
