DESCRIPTIVE REPORT

3410

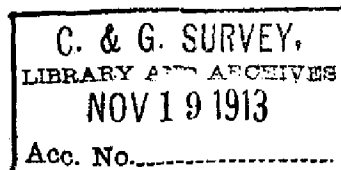

to accompany Topographic Sheet No. 3410

Scale 1:20000

Coast of Florida and Georgia

St. Marys Entrance

1910

This resurvey was made in connection with the hydrography off this entrance for the purpose of showing the changes in the shoreline which may have been caused by the various influences at work, in this locality, where extensive improvements have been made in recent years.

A table of positions of objects determined by the planetable is attached.

Respectfully submitted,

A handwritten signature in cursive script, appearing to read "W. C. Hodgkins".

Chief of Party

To the Superintendent

of the Coast and Geodetic Survey,

Washington, D. C.
