DESCRIPTIVE REPORT

to accompany Topographic Sheet No. 3411

Scale 1:20000

Coast of Georgia

Vicinity of Sapelo and St. Catherines Sounds

1913

This resurvey was made for the purpose of learning the progress of the changes which the shore line is undergoing in the immediate neighborhood of the entrances to the sounds mentioned above and was done at such times as happened to be convenient for this work without retarding the regular hydrographic work of the party on the BACHE.

No positions suitable for use in future surveys were determined in the course of this work and the customary table of such determinations is therefore omitted.

Respectfully submitted,

To the Superintendent

Chief of Party.

of the Coast and Geodetic Survey,

Washington, D. C.

November 18, 1913
