Inked by Oscar Mulford

Heights in feet above to ground to tops of trees

Contour, Approximate contour, Form line interval feet

Instructions dated November 2 1933

Remarks: For location of hydrographic signals  
and control points for air photos.

DESCRIPTIVE REPORT OF WORK DONE ON  
TOPOGRAPHIC SHEET "Q"

Instructions dated Nov.2,1933.

- a This sheet was used mainly for the location of hydrographic signals, with the exception of the location of about 900 meters of shoreline adjacent to Stations, 500 meters of said shoreline is marshy and 600 meters is cut bank.
- b No landmarks.
- c The control used on this sheet was of third order triangulation.
- d No traverses were run.
- e Hydrographic signals were located by at least three cuts from triangulation stations, shoreline was located by rodding.
- f No form lines.
- g No revision work.
- h No incomplete or unreliable work.
- i No deviation from standard practice.
- j No junctions with adjacent work.
- k No new names.
- l Recoverable positions furnished on form #524.
- m Aerial photographs have been taken of this area.
- n No changes in coast line.
- o Marshes are of grass covered mud with occasionally a thin layer of oyster rock exposed at low tide.

Respectfully submitted,

Oscar Mulford.  
Topographer.
