## DESCRIPTIVE REPORT

To Accompany Topographic Sheet L.

Instructions dated August 31, 1934  
Project No. HT-197.

Pamlico River  
Mouth of Goose Creek

### PURPOSE OF SURVEY

The purpose of this topographic sheet was to locate hydrographic signals and shoreline for use on the boat sheets. All topographic details in this territory were compiled by the air-photo party of Lieutenant Grenell.

### GENERAL DESCRIPTION

This sheet covers a section of the south shore of Pamlico River in the vicinity of Goose Creek. It is joined on the west by sheet M and on the south by sheet V.

### LANDMARKS FOR CHARTS

There are no landmarks for charts in this territory. A list of non-floating aids to navigation will be submitted in a separate report.

### CONTROL

The sheet is well controlled with triangulation stations established from 1914 to 1935 and adjusted in the field to N. A. 1927 datum.

### SURVEY METHODS

Standard Coast Survey methods were used throughout. Traverses were run between triangulation stations.

All shoreline was compared with the air-photo compilation sheets and found to agree satisfactorily.

### RECOVERABLE PLANETABLE POSITIONS

Owing to numerous triangulation stations no permanent recoverable planetable positions were established within the limits of the sheet.

### GEOGRAPHIC NAMES

Information relative to geographic names was obtained by the air-photo party of Lieutenant Grenell.

REVIEW OF GRAPHIC CONTROL SURVEY T-6405, SCALE 1/10,000

Date of Review

1. This survey has been reviewed in connection with Air Photo Compilation Nos. T-5557, , with particular attention to the following details:

- (a) Projection has been checked in the Field. ✓
- (b) Accuracy of location of plane table control points.
- (c) Discrepancies between detail on this survey and the air photo compilations listed above. *in report for T-5557*
- (d) Discrepancies found in descriptions submitted on Form 524 when compared with the air photo compilations listed above. *none submitted*

2. Refer to the reviews and descriptive reports of air photo compilations Nos. T-5557, , for a more complete discussion of any errors or discrepancies found. ✓

Any material errors found on this survey are noted in subsequent paragraphs of this review, and these have been reported to the Field Records Section and the Cartographic Section. *none* ✓

Notes and corrections resulting from the review are shown on this survey in green. *none - only minor differences as discussed in review T 5557*
