LIBRARY & ARCHIVES

DATE February 1, 1965
DATA RECORD

T - 11223 A and T - 11223 B
Refer to the "Summary" (page 6) concerning the registration of two meph ("A" and "B") for this survey.

Project No. (II): 6116
Quadrangle Name (IV):

Field Office (II): Baltimore, Maryland
Chief of Party: E. H. Kirsch
Photogrammetric Office (III): Washington, D. C.
Baltimore Md.
Officer-In-Charge: S. W. Swanson
W. E. Randel
Copy filed in Division of Photogrammetry (IV)

Instructions dated (II) (III):
30 April 1953
9 July 1953 (Supp. II)
15 December 1955
20 January 1956

Supplemental Instructions (Office) PH-116 8 May 1961
PH-610 Instructions 10 May 1961

Method of Compilation (III):
Stereo instruments
Kelsh and Stereoplanigraph

Manuscript Scale (III): 1:10,000
Stereoscopic Plotting Instrument Scale (III): 1:10,000

Scale Factor (III):

Date received in Washington Office (IV):
Date reported to Nautical Chart Branch (IV):

Applied to Chart No.

Date:
Date registered (IV):

Publication Scale (IV):

Publication date (IV):

Geographic Datum (III): NA 1927

Vertical Datum (III):
Mean sea level except as follows:
Elevations shown as (26) refer to mean high water
Elevations shown as (2) refer to sounding datum
i.e., mean low water or mean lower low water

Reference Station (III):
West Tangent RM No. 1 (MGS) 1937

Lat.: 41°14'50.15"
Long.: 69°58'48.63"

Adjusted
Unadjusted

Plane Coordinates (IV):
State:
Zone:

Y=
X=

Roman numerals indicate whether the item is to be entered by (II) Field Party, (III) Photogrammetric Office,
or (IV) Washington Office.

When entering names of personnel on this record give the surname and initials, not initials only.

Summary to Accompany Descriptive Reports

T-11221A and T-11221B

T-11123A and T-11123B

T-11121 and T-11123 are two of 40 similar surveys comprising Project FH-116. Two maps (labeled "A" and "B") are to be registered for each of the subject surveys. Project coverage includes (1) Cape Cod Bay shoreline (2) the entire east shore of Cape Cod, and (3) the islands of Martha's Vineyard and Nantucket. The subject maps cover the southeastern shore of Nantucket Island.

The shoreline on T-11121A and T-11123A was compiled from 1955 photographs (field inspected in 1955). This shoreline was used for Hydrographic surveys 8449 and 8450 (1958).

New photography - tide controlled infra red and color - was taken in 1961 for the purpose of constructing a new nautical chart (265). A chart compilation manuscript, registered as T-12500, provided the new topography for the chart. The details required for the new chart were revised on T-11221 and T-11223. T-111221B and T-11123B are the revised copies.

A report covering 1958 photogrammetric field work accomplished in conjunction with Hydrographic Surveys H-8449, H-8459, and H-8497 is bound with Descriptive Report T-11217 (A and B)

FIELD REPORT

See Descriptive Report for T-11221.
31. **DELINEATION**

   The Stereoplanigraph was used to detail this sheet.

32. **CONTROL** - not applicable

33. **SUPPLEMENTAL DATA** - not applicable

34. **CONTOURS AND DRAINAGE** - not applicable

35. **SHORELINE AND ALONGSHORE DETAILS**

   The high and low water lines were clearly delineated in the field.

36. **OFFSHORE DETAILS** - not applicable

37. **LANDMARKS AND AIDS** - See Form 567, a part of this report.

38. **CONTROL FOR FUTURE SURVEYS** - not applicable

39. **JUNCTIONS**

   T-11221, T-11222

40. **HORIZONTAL AND VERTICAL ACCURACY** - not applicable

46. **COMPARISON WITH EXISTING MAPS**

   AMS V814 Sheet 6966 I SE
   Siasconset, Mass.
   1:25,000, 1947

47. **COMPARISON WITH NAUTICAL CHARTS**

   Nautical Chart No. 1209
   Nantucket Sound and Approaches
   1:80,000, 1943

Submitted by: C. Cook

Approved by: M. Keller
SUPPLEMENTAL COMPILATION REPORT

T-11223

Ratio prints of the infrared photography were used to revise the high-water line by holding details common to both the manuscript and the photographs.

The approximate low-water line, breaker areas and the apparent edge of shallow areas were delineated by office interpretation on overlays from the 1:20,000 and 1:60,000 scale color photographs. These details were then transferred to the manuscript by use of the vertical projector.

Respectfully submitted
23 June 1961

R. Glaser
Carto. (Photo.)

Approved and forwarded

William E. Randall
CDR, C&OS
Baltimore District Officer

Addendum:
Only those interior details needed for the compilation of Chart 265 have been added or revised from 1961 photography.
Review Report
T-11221A and T-11221B
T-11223A and T-11223B

61. General

Refer to the subject Descriptive Report "Summaries" concerning the registration of two maps each for surveys T-11221 and T-11223.

62. Comparison with Registered Topographic Surveys

Having been used for (1) shoreline for hydrographic surveys - maps T-11221A and T-11223A and (2) new nautical chart construction - maps T-11221B and 11223B, the maps were not compared with older topographic surveys at the time of review. Manuscripts T-11221B and T-11223B or chart compilation manuscript T-12500 should be used for future chart construction.

63. Comparison with Maps of Other Agencies

Siasconset, Mass. 1:24,000 1951

No significant difference were noticed.

64. Comparison with Contemporary Hydrographic Surveys

H-8449 Scale 1:10,000 Date 1958
H-8450 Scale 1:10,000 Date 1958

T-11221A, T-11223A and T-11217A provided the shoreline for H-8450 and H-8449. Portions of the shoreline shown on the planimetric surveys were revised by field methods during hydrography. The revised shoreline, shown on the hydrographic survey was not transferred to the planimetric survey.

Some rock information shown on planimetric survey T-11221, near the entrance of Folpis Harbor, was not carried forward to the Hydrographic survey. Due to their locations and elevations the rocks are of no great importance.

65. Comparison with Nautical Charts

265 scale 1:40,000 Date 1963

Topography for this chart was provided through T-11221B,
T-11223B and other Ph-116 surveys; refer to the Descriptive Report "Summary" and other sections of this report.

66. Adequacy of Results and Future Surveys

This map meets the National Standards of Map Accuracy and Bureau requirements.

M 234
I recommend that the following objects which have (have not) been inspected from seaward to determine their value as landmarks be charted on (delete form) the charts indicated.

The positions given have been checked after listing by

<table>
<thead>
<tr>
<th>STATE</th>
<th>Massachusetts</th>
<th>POSITION</th>
<th>METHOD OF LOCATION AND SURVEY NO.</th>
<th>DATE OF LOCATION</th>
<th>CHARTS AFFECTED</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHARTING NAME</td>
<td>DESCRIPTION</td>
<td>SIGNAL NAME</td>
<td>LATITUDE*</td>
<td>LONGITUDE*</td>
<td>DATUM</td>
</tr>
<tr>
<td>RADIO TOWER</td>
<td>Loran mast</td>
<td></td>
<td>41-14</td>
<td>1739.5</td>
<td>69-58</td>
</tr>
</tbody>
</table>

This form shall be prepared in accordance with Hydrographic Manual, pages 800 to 804. Positions of charted landmarks and nonfloating aids to navigation, if reetermined, shall be reported on this form. The data should be considered for the charts of the area and not by individual field survey sheets. Information under each column heading should be given.
**INSTRUCTIONS**

A basic hydrographic or topographic survey supersedes all information of like nature on the uncorrected chart.

1. Letter all information.
2. In "Remarks" column cross out words that do not apply.
3. Give reasons for deviations, if any, from recommendations made under "Comparison with Charts" in the Review
