Department of Commerce and Labor
COAST AND GEODETIC SURVEY

Superintendent.

State:

DESCRIPTIVE REPORT.

Sheet No. 1224 a

LOCALITY:

191

CHIEF OF PARTY:
Description Report
Topographic Sheet 1224-a

This sheet shows the Coast of Maine from the Spurwink
Point to Coos Fair Creek.

Revision made a photo print of the original
sheet and plans of towns and real estate com-
panies. Layouts were made and taken into the field.
Changes were noted and plotted on the photograph
of the original sheet by angles and distances
measured from identified objects on the original
sheet.

Roads, groups of streets, and homes are
delineated accurately, but plotted with some
accuracy as to require an instrumental and
accurate, measured distances to show discrepancies.
Main roads, roads leading to the shore, electric
and phone roads, are noted.
By roads and detached homes are not shown
except when their location was incident to other
work. So fence lines, or wood lines shown.

Washington, D.C.
January 26, 1914

Examination of Topographic Sheets
by the
Divisions of Field Work and Field Records.

1. Has the magnetic meridian been determined? ..................................................
2. Is the point occupied for the determination of magnetic meridian designated? .................................................................
3. Is the approximate or rodded location of high water mark in back of mangroves shown? .................................................................
4. Have navigable rivers been surveyed? .................................................................
5. Is interior information given by descriptive legends or otherwise? .................................................................
6. Is the inking of the sheet legible? .................................................................
7. Is projection properly shown? ..................................................................
8. Are methods of surveying fully described? .................................................................
9. Are descriptive legends given concerning conspicuous islets, objects, rocks, and other features given in blank areas? .................................................................
10. Are geographic names given? ..................................................................
11. Is full information regarding geographic names given in the descriptive report in accordance with paragraph 537 of the Instructions for Field Work? .................................................................
12. Are the names of topographic signals given? .................................................................
13. Does the sheet have a neat appearance? .................................................................
14. Is sufficient contouring shown, some of which could be obtained by sextant directions from boat positions? .................................................................
15. Is the control good? ..................................................
16. Is the sheet well laid out? ........................................
17. Is the accuracy of traverses between triangulation stations stated in the descriptive report?  
                                             [Yes]

.................................................................
18. Are the elevations of prominent rocks or islets given? .........
19. Are the description of reefs, as bare, awash or covered at high or low water given?  ........................................
20. Are objects useful for future surveys indicated?  [No] .........
21. Is there a record of marking topographic stations? ..............
22. Is the character of the beach shown in various places? ..........
23. Is the plane of reference for elevations given? .................
24. Is the low water line determined at important places? ..........
25. Is there a full list of data affecting sheet given on title sheet? .................................................................
26. Is there a list of plane table positions?  [No] .................
27. Are the elevations whether that of tree-top or ground indicated? 
                                              .................................................................
28. Does the descriptive report give date of instructions?  [No] ....
29. Is a sketch given showing contouring of interior mountainous country beyond limits of sheet? ........................................
30. Is the general description of the coast given? .................
31. Is there information about obtaining fresh water? .............
32. Have standard symbols for various features been used? ........
33. Is the survey complete? 

34. Is there a note as to cultivations, roads and other improvements? 

35. Is commercial information given in descriptive report? 

36. Is there a list of landmarks?
