State: D.C.

DESCRIPTIVE REPORT.

Top... Sheet No. 2075-8

LOCALITY:

Vicinity of Langdon, D.C.

1892.

CHIEF OF PARTY:

W. C. Hodgkins
Description Report

to accompany Top Sheet- No 2076 &c., of one
square mile in the District of Columbia.

This was a so-called "experimental survey." The
dane area which had already been surveyed
on 1:4500, being successively delineated on
the three scales of 1:20 000, 1:30 000 and 1:40 000
by three different officers. This is that on 1:20 000.
The general character of the country is rolling,
with numerous patches of woodland.
There is a good deal of artificial detail, in-
cluding county roads, railroad, and a sub-
urban subdivision.
There is very little arable land and grassland
and woodland are in about equal parts.
The Baltimore and Ohio railroad crosses this
square mile, and "Langdon" station is nearly in
its centre.

DESCRIPTIVE REPORT.

Topographic Sheet No. 2075-b

LOCALITY:
Experimental square

miles requiring no
report

1892

CHIEF OF PARTY:

J. A. S. Smith

Dr. Henry S. Pritchett,
Superintendent U.S. Coast and Geodetic Survey,
Washington, D.C.

Sir:

Sheet No. 2075b is the survey of one square mile, scale one-thirty-thousandth, made for special experimental purposes (for ascertaining both the relative amount of detail to be shown and the relative differences in time and price for different scales) and no descriptive report was furnished; the sheet in question is one of a series of three, (or counting the original survey, a series of four) sheets.

Very respectfully,

(Signed) J.A. Flenor.

Asst. C. & G. Survey.
U. S. COAST AND GEODETIC SURVEY.

Superintendent

State District of Columbia
