Sir:

In obedience to Instructions and memoranda for Descriptive Reports, 1887, I beg leave to submit the following report on Topographic Sheet No. 2354.

The work consists of a topographic survey of the region in the vicinity of Aransas Pass, Texas, made in connection with the hydrographic survey of the same locality.

As the primary object of the survey was for the hydrography, a complete descriptive report of this has been prepared including all that could be said relating to the topography. Reference is made to Descriptive Report on Hydrographic Sheet No. 2374, on file at the office.

Very respectfully,

P. A. Webster,
Assistant, U.S. Coast and Survey.
