CHIEF OF PARTY:
"H. F. Stimson," Capt.
Descriptive Report

To accompany topographic exhibit of Pot Polomouye, Pot Camina and Pot Donjou, Wail Conty of Uganda.

Pot Polomouye is shown on one sheet, scale 1/20,000. It was executed in March 1903 by C. E. Whifield R.C.S. The points, Polomouye, Pot and Polomouye Force were plotted on the sheet by their relative distances and the control of the work rests on these points.

Pot Camina is shown on one small sheet, scale 1/6,000. It was executed by C. E. Whifield R.C.S. during March 1903. The control of the sheet rests by the magnetic needle.

Pot Donjou is shown on one small sheet on a scale of 1/5,000. The work was done by C. E. Whifield R.C.S. during June, 1903. The orientation of the sheet was controlled by magnetic needles. This sheet contains no triangulation points and will have to be located by the position of the joining point with the west sheet as determined from 5 with 60.

Respectfully submitted

A. F. Flynn.
