Washington, D.C.,

Dec. 11th, 1909.

Mr. O. H. Pittmann,
Superintendent, Coast and Geodetic Survey,
Washington, D.C.

Sir:

In obedience to "Instructions and Memoranda for Descriptive Reports, 1887", I have the honor to submit the following report on Topographic Sheet, No. 2972:

1. This sheet is the result of a survey made by a commission of engineers appointed by the United States Court for the State of Virginia, for the purpose of surveying a portion of the Fort Myer Military Road which was deeded to the United States by Charlotte L. Drain and Francis P. Drain, her husband, September 30th, 1902.

2. A complete descriptive report of this sheet is embodied in a copy of my personal reports while on duty as a member of the said commission

and a copy of the final report of the commission, all bound in one volume, and transmitted to the office with my letter of December 8th, will be found in the archives. Reference is respectfully invited to these reports for complete information in regard to the work represented upon the sheet.

Very respectfully,

P. A. Walker,

Assistant, C. & G. Survey.
