TOPOGRAPHIC REPORT TO ACCOMPANY SHEET NO. 4 (Field No.)

Register No. __________________

Goulding Mtr.

This sheet includes the two coves in Pinta-Bay and topography north of Pinta-Bay.

Goulding Mtr.

- DESCRIPTION -

The shoreline is rock with sand and gravel beaches of a wide extent.

Baker Cove is the first cove from the entrance to Pinta-Bay and is 800 meters long and 180 meters wide at the entrance and 400 meters at the widest part.

The eastern cove is 1000 meters long and 500 meters at the widest part, is largely a bare flat at low water. Most boats in coming to the mine which is here located, anchor immediately after rounding the point of this cove and near the western shore.

Big Chief Mtr., 3060 feet, is a large gray mountain, quite regular in shape. It stands out 1000 feet above the surrounding peaks and can be seen in Portlock Harbor.

- SURVEY METHODS -

This area was surveyed by transferring the plane table positions of Fec and Jac from southern sheet and using this as an azimuth for starting.
