TOPOGRAPHIC TITLE SHEET  

The Topographic Sheet should be accompanied by this form, filled in as completely as possible, when the sheet is forwarded to the Office.

Field No. T-8

REGISTER NO. T-6723 a & b

State Louisiana

General locality Mississippi River Passes

Locality South Pass, Garden Island Bay and Redfish Bay

Scale 1:20,000 Date of survey Aug. and Sept., 1939.

Vessel Hydrographer

Chief of party G.C. Mattison

Surveyed by Edwin C. Baum

Inked by Edwin C. Baum

Heights in feet above M.H.W. to ground to tops of trees

Contour, Approximate contour, Form line interval feet

Instructions dated June 24, 1939 & Sup. July 1, 1939.

CHIEF OF PARTY
DESCRIPTIVE REPORT TO ACCOMPANY
TOPOGRAPHIC SHEET NO. T-6723a & b

AUTHORITY:
Instructions dated June 24, 1939 and Supplemental
Instructions July 1, 1939. Project H.T.-236

GENERAL:
Adequate topography to cover the entire area of this survey
was furnished on Air-Photo Compilation Sheet No. T-5407.

The purpose of this survey was to establish and locate suffi-
cient topographic signals to control future hydrographic surveys.
Standard planable triangulation was executed thruout.

Several mud lumps immediately to southward of sandspit at
southernmost tip of South Pass were surveyed in detail. The deline-
ation of these six lumps are shown on insert.

The "Water Tank Port Eads" was replaced and location changed
with a smaller tank. The location of this new tank is shown.

LANDMARKS:
The two Radio Towers at Port Eads as shown on Chart No. 1272
no longer exist. These towers should be deleted from chart.

Two new radio towers 400 meters west of E. Jetty L.H. were
located.

GEOGRAPHIC NAMES:
No new names.

DISCREPANCIES:
Topographic verification of location of South Pass W. Jetty
R.R. Light shows this structure to be 18 meters to southwest of position
shown on Air-Photo Compilation Sheet No. T-5407. The new location
was used to control hydrography

FEATURES:

Topographic signals TAR, RET, TER and SIR are targets attached to piling found in place.

Topographic signals PEL and YU are small target signal built on sand bar.

The remaining signals are inside the H.W.Line

No information given regarding PAT

Respectfully submitted,

Edwin C. Baum,

Approved and Forwarded:

G. C. Mattison,
Chief of Party.

Inspected by

Statistics to accompany Topographic Sheet T-6723a & b.

T-6723a 0.9 statute miles of shoreline.
T-6723b 0.0
Pensacola Florida  November 8, 1939

I recommend that the following objects which have (have not) been inspected from seaward to determine their value as landmarks, be deleted from the charts indicated.

The positions given have been checked after listing.

G. C. Mattison
Chief of Party.
