'CHIEF OF PARTY:'
This sheet was revised in September 1912.
The town line is unchanged. The islands are
covered with vines and grass. There are no trees.
The population during winter is small, a
few fishermen and car takers for the hotels.
During summer there is quite a good patron-
age of the five hotels. A steamer, during the
season, makes two or more round trips daily.
A Cable Connects, by telephones, with the
mainland. The stone fences, shown on the old sheet,
have disappeared or are in such poor repair
as to be in doubt as to their position, hence they
are either omitted or not shown on the new sheet.
