The preliminary shoreline maps shown on the attached index were
data plotted and the detail delineated in 1943 and 1944 without
field inspection of any kind, to furnish detail for small scale nautical
charts and shoreline for hydrographic surveys.

Preliminary shoreline map T-8471 covers Nosnesenski Island, Pavlof
Islands, Alaska, from Latitude 55°-07' to 55°-16' and Longitude 164°-05'
to 161-29'; T-8472 covers Ukolnoi Island, Pavlof Islands, Alaska, from
Latitude 55°-11' to 55°-16' and Longitude 161°-30' to 161-43'; and
T-8473 covers Soperchnoi Island, Pavlof Islands, Alaska, from Latitude
55°-01' to 55°-09' and Longitude 161°-30' to 161-45'.

A continuous radial plot was laid for sheets T-8471, T-8472, and
T-8473. It is not recommended that these sheets be used for large
scale mapping without the usual field inspection.

Data pertaining to T-8471, T-8472, and T-8473 is filed as follows:

A. Division of Photogrammetry General Files:
   1. Acetate Manuscripts

B. Bureau Archives:
   1. A cloth backed lithographic print of the reviewed
      maps at correlation scale
   2. Registered original descriptive report

A basic hydrographic or topographic survey supersedes all information of like nature on the uncorrected chart. Give reasons for deviations, if any, from recommendations made under "Comparison with Charts" in the Review.
