STATISTICS (III)

Land Area (Sq. Statute Miles): 4

Shoreline (More than 200 meters to opposite shore): 8.8 statute miles

Shoreline (Less than 200 meters to opposite shore): 12 " "

Number of Recoverable Topographic Stations established: None

Number of Temporary Hydrographic Stations located by radial plot: None

Leveling (to control contours) - miles:

Roman numerals indicate whether the item is to be entered by, (II) Field Party, (III) Compilation Party, or, (VI) the Washington Office.

When entering names of personnel on this record give the surname and initials (not initials only).

FIELD REPORT

SHORELINE MANUSCRIPT

SURVEY T-8918

For field data covering Survey T-8918 refer to the special report L 81 (1947) Gulf Intracoastal Waterway, Vermilion Bay, La. to Port Arthur, Texas, filed in the Nautical Chart Branch.
This manuscript is one of a series of surveys in Project No. PH-14(6) covering a narrow strip of land along the Gulf Intracoastal Waterway from Vermilion Bay, La. to Port Arthur, Texas. This survey covers the Waterway in the area of Sweet Lake. Compilation instructions were not furnished for this project.

26. CONTROL

For the layout of control on this manuscript refer to the radial plot report. A list of control stations is included in this report on Form M-2388-12.

27. RADIAL PLOT

Refer to the radial plot report for Surveys T-8915 to T-8919 submitted to the Washington Office on 16 September 1948, filed with the Descriptive Report of T-8915.

28. DELINEATION

The compilation is in accordance with Photogrammetry Instructions No. 17, dated 15 September 1947. Filed in Div. Photogr. office files.

The field inspection was adequate for the area covered by this survey.

Limits of areas of marsh, high ground, and interpretation of other inland features were determined after careful stereoscopic examination of the photographs.

30. MEAN HIGH WATER LINE

The mean tide range in this area being approximately one foot makes the MHWL and the MLWL practically the same.

31. MEAN LOW WATER LINE

See MHWL above.

32. DETAILS OFFSHORE FROM THE MEAN HIGH WATER LINE

Delineated in accordance with field identification.

33. WHARVES AND SHORELINE STRUCTURES

No comment.
45. COMPARISON WITH NAUTICAL CHARTS (Cont'd.)

shown on this manuscript but are believed to still exist and should be carried forward on the chart:

None.

Minor changes in cultural and shoreline details require no special discussion.

Review Report
Shoreline Survey T-8918

44 Comparison with existing surveys

A. Quadrangles
   Boudreaux Lake, La. 1:31,680 1934
   Sweet Lake, La. 1:31,680 1934

B. Topographic Surveys
   T-6176 1:20,000 1934

C. Hydrographic Surveys
   T-8918 supersedes T-6176 for nautical charting purposes.
   There are no contemporary surveys in this area.

45 Comparison with Nautical Charts

591  1:40,000  1949 (latest correction date)

There is no detail common to chart 591 on the overlapping area of T-8918.

47 Adequacy of Compilation

Field inspection was adequate in the immediate vicinity of the Intracoastal Waterway.
